Digital Library

<http://www.mc.vanderbilt.edu/diglib/>

The Eskind Digital Library is the main portal to thousands of online journals, websites, books and other resources in the Health Sciences. This dynamic portal allows users to browse by subject, resource type or collection and search by keyword to locate online materials and determine key information such as date ranges and other descriptive information.

Searching the Digital Library

Users can search the digital library using 3 different methods: browsing alphabetically from the main page, browsing by format from the side bar, and using the keyword search box at the top of the page. The most highly used resources can be accessed conveniently from the "Quick Links" menu drop down. Subsets of resource listings tailored to specific audiences are readily available through the Customized Digital Libraries.

Interface Options:

- **Default display** is an alphabetic title listing of all formats of resources (*journals, books, databases, websites all interfiled*)
- **Sidebar buttons** display titles within specific formats

Fast access to titles:

- Quick Links menu lists VUMC's most highly used resources

Customized Digital Libraries

Descriptive Information:
Click the "i" to display additional information

Search Strategies

Keyword Search option:

- Restrict to title to quickly find specific item
- Search on journal abbreviations (e.g. Int J Cardiovasc Imaging)
- Use keyword search to find words from resource descriptions

Advanced Keyword option:

- Use advanced search to search by subject or material format

The screenshot shows the digital library interface with a sidebar on the left containing navigation buttons like 'Resources by Title', 'Electronic Journals', 'Electronic Books', etc. The main content area displays a list of resources with search filters and a 'Quick Links' dropdown menu. A 'Check for Publisher NIH COMPLIANCE' button is visible in the top right. A 'News' sidebar on the right contains a 'Play' button and a message about citation services.

Important EBL Services and Tools

Access to several key services and tools are available from the Digital Library, such as:

-  Link to all of EBL's online forms and services, including "Storage Retrieval" & DDS.
-  Allows users to check that a journal is compliant with the new NIH policy effective April 7, 2008.

Consult *Ask ELIS*, the Eskind Library Information Specialist (<http://www.mc.vanderbilt.edu/diglib/askELIS.html>) for *online assistance* with:

- Constructing database search strategies or selecting databases appropriate to research topics
- Questions about services, access, and electronic resources

For *hands-on instruction*, please see the Eskind's Training classes at <http://www.mc.vanderbilt.edu/biolib/services/training.html>.

Comments about the Digital Library can be sent to eblwebmaster@vanderbilt.edu
