

HEALTHY CAUCASIAN VOLUNTEERS NEEDED!

Vanderbilt researchers are studying whether a person's genetics affect how well a certain FDA-approved medicine gets into body fluids.

If you are healthy, and at least 18 but no more than 55 years of age, you may be eligible.

Involves several clinic visits, and an all-day and overnight visit to the Clinical Research Center.

Study drug is taken by mouth for 1 week.

You will get payment for being in the study.
