The Vanderbilt University School of Medicine
Department of Radiology and Radiological Sciences

Presents

The Third Annual Richard M. & Toni Heller Lecture in Pediatric Imaging

“Imaging of Cartilage”

By

Diego Jaramillo, MD, MPH

Radiologist-in-Chief and Professor of Radiology
The Children’s Hospital of Philadelphia affiliated with the Perelman School of Medicine at the University of Pennsylvania
Philadelphia, Pennsylvania

Monday, April 29, 2013
12:00 p.m. – 1:00 p.m.

202 Light Hall
Vanderbilt University Medical Center

This grand round is designed for faculty, residents, staff and medical students. Objectives of this presentation: 1) Be familiar with the imaging characteristics of the cartilaginous structures of the pediatric skeleton. 2) Recognize the most commonly used MR sequences for the evaluation of immature cartilage. 3) Be familiar with some of the newer methods to image the biochemical structure of cartilage.

Sponsored by the Vanderbilt School of Medicine Department of Radiology and Radiological Sciences.
