The Vanderbilt Transplant Center has long been recognized as one of the nation's premier centers in transplantation. It is an exceptional, multidisciplinary alliance of transplant specialists. The participants share a common interest in the efficient, acute and long-term care of the patient through advances in immunosuppression, organ and tissue procurement, avoidance of complications, and facilitation of social support.

Founded in 1989, the Transplant Center's mission is to advance the medical, social, and scientific aspects of transplantation and enhance preference for Vanderbilt transplant services through multi-specialty efforts in clinical programs, education, and research.

PROGRAMS INCLUDE

- Blood and Marrow
- Heart
- Kidney/Pancreas
- Liver
- Lung & Heart/Lung
