ONE HEART at a Time

Vanderbilt Heart is dedicated to delivering state-of-the-art care for the diagnosis, prevention and treatment of cardiovascular disease. Our Franklin practice provides a comprehensive, yet individualized approach to your care. We believe in “one heart at a time” to make sure you are getting the best treatment for your particular cardiovascular condition.

UNDERSTANDING HEART DISEASE

Heart or cardiovascular disease is a term that describes a wide range of diseases that affect your heart or blood vessels. These include coronary artery disease, heart attack, high blood pressure and stroke. The diseases of the heart and blood vessels are the number one killer of men and women in the United States.

HOW VANDERBILT HEART CAN HELP

At Vanderbilt Heart Franklin, we use a multidisciplinary approach to prevent heart disease or the progression of cardiovascular disease. Our physicians are specialists in general cardiology, interventional cardiology and electrophysiology. And our highly trained staff is here to help see that you get the best in care.

CARE at VANDERBILT HEART FRANKLIN

We use the latest advances in cardiac care and clinical therapies to accurately diagnose and manage heart disease. At Vanderbilt Heart, we base our treatment plan on your medical history, current condition and concerns.

Diagnostic options include stress tests, electrocardiograms (ECGs, event and holter monitoring), nuclear and ultrasound (heart) imaging.

Treatment can include recommendations for lifestyle modifications, medications and various non-surgical and surgical procedures. And because our Franklin practice is part of the most comprehensive heart program in the area, we offer a wide-range of innovative new treatments and services.

WE’RE HERE FOR YOU

Your health is our primary concern at Vanderbilt Heart Franklin. We are committed to providing our patients with high quality and innovative treatments for heart disease. One heart at a time.

OUR PHYSICIANS

Brent C. Anderson, M.D.
